

Cooperation between Tel Aviv University - Medical University of Innsbruck

M. Hochleitner & H. Siller
Gender Medicine Unit
Medical University of Innsbruck

The mobility agreement between Tel Aviv University and Medical University of Innsbruck offers staff from the Tel Aviv University the possibility to visit the Medical University of Innsbruck for a short period of time. Focus of stay will be either research or teaching.

Who can apply:

Staff (e.g. medical doctors, scientists, lecturers) currently employed at the Tel Aviv University.

Staff doing research or teaching on sex or gender aspects in medicine

Length of stay:

Minimum stay: 4 days (at least 2 days in addition to travelling days)

Maximum stay: 6 weeks

Stay depends on the topic of cooperation (either teaching or research)

When:

Between March and End of May 2018

Language requirements

English or German

Financial aspects

Travelling and accommodation are covered by the grant agreement

Detailed information will be given upon request

The following topics are possible for cooperation for incoming staff from the Tel Aviv University.

1. Research projects

Research project should focus on gender, promotion of women, discrimination, Gender Medicine

Focus of stay will be on research cooperation, working on joint publication etc.

2. Joint academic seminars (incoming staff has to do at least 8 hours of teaching during stay)

Proposed course for teaching is provided by the incoming person, target group for the course are medical students and the course has to be anchored in the curriculum, e.g. as an elective course. It can be a blocked course, thus, 8 hours in one day or split across several days

Topic and structure will be discussed with the Gender Medicine Unit of the Medical University of Innsbruck before coming over
